Happy New Year from all of us at GPA Europe!

As registration opens for the GPA Global 2020 - 28th Annual Technical Conference, we bring you essential updates and what else to look out for in 2020.

Stay involved with us in 2020, membership renewals for 2020 have all been sent out and we look forward to seeing you at one of our conferences this year.

GPA Europe Spring Conference 2020
TOTAL, Paris
2 - 4 June 2020

TOTAL will host GPA Europe 2020 from 2 to 4 June 2020, providing the perfect platform for three days of high-level networking, discussion and debate.

Our Spring Conference will once again combine with our Young Professional Training Day.

We are planning some exciting activities, alongside high quality technical presentations.

[Call for Papers](#) is open now! If you have a story to tell, we would love to hear it.

We will also have limited, but high quality, exhibition space within the breakout area. If you are interested, please [contact us](#) for more information or to reserve your space.

Registration will open in February 2020 - Save the Date!

28th Annual Technical Conference GPA Global 2020 17 - 19 March 2020

Registration for the 28th Annual Technical Conference of the Gas Processors Association GCC Chapter is now open. The Conference will be held on 17 – 19 March 2020, Kuwait.

The topic for their conference is "[Natural Gas Value Chain - Opportunities and Challenges](#)"

If you are interested in Sponsoring or Exhibiting, further details can be found [here](#).

The event starts with a number of [two day workshops](#).

If you are a GPA Member then you qualify for a discount if you book through us.

[Registration is OPEN: Kuwait 2020](#)

GPA Midstream Convention, New Orleans 18 - 22 April 2020

We are once again supporting GPA Midstream with submission of a paper or two for the Worldwide Developments Breakfast and Forum taking place on 21 April 2020.

Registration for the 2020 [GPA Midstream Convention](#) will open 8 January 2020.

GPA Europe Awards

As a reward for our fantastic speakers, we present 2 awards each year at our AGM in November.

The **Best Paper Award** is selected by our conference attendees and is based on the feedback scores received. Alongside the award, the winner will get the opportunity to present their paper at the GPA Midstream Convention in April of the following year.

The **Aungier Award** is for the best paper presented by one of our Young Professionals at our conferences. The winner is decided by our Technical Committee. Alongside the award, the winner will get £1,000.

Could this be you? Our Call for Papers for our Spring Conference and Young Professional Training Day 2020, hosted by TOTAL is now open! [Contact us](#) for more information.

Sponsorship and Exhibition Opportunities

We provide a direct marketing channel to Directors and Process Engineers within the natural Gas Processing Industry.

We have multiple sponsorship opportunities at our events, as well as advertising within In Brief and our Newsletter - [contact us](#) for more information.

[Highlight Your Institution](#)

[In Brief](#)

Our November 2019 Issue of In Brief is now out on the streets - [Check it out!](#)

Our latest e-zine In Brief contains; write ups on our 2019 Spring Conference; the "View from the Top" from our Chairman, Martin Copp; and exciting updates from GPA Europe.

If you would like to contribute to our May 2020 Issue, we have an opportunity for a budding author to offer a leading article. A chance to promote your name through the industry. In return we need an article of general interest, of about 1800-2000 words to fill 3 pages - well written and engaging to boot.

In Brief is a great opportunity to gain product recognition to the GPA Europe membership - print copies of this issue will be shared at all conferences in 2020.

GPSA Engineering Databooks - 14th Edition

The 14th edition of the GPSA Engineering Databook is now available with up to the minute improvements and the latest data.

The GPSA Engineering Databook is almost 1,000 pages of technical information and is the worldwide authoritative resource for technical and design information. It compiles basic design information together with data and procedures that can be used by field and plant engineers to determine operating and design parameters.

It is also intended as an aid to design engineers who, in spite of increasing availability of computer routines and other sophisticated design methods, require a general reference work as a guide to accepted engineering practice for estimating, feasibility studies, preliminary design and for making on-site operating decisions.

Every process engineer should have one!
